

# Hazelview Global Real Estate Fund

Fund Profile as of January 31, 2025

## Fund Overview

Hazelview Global Real Estate Fund (the "Fund"), a **liquid alternative**, enhances portfolio diversification and provides unitholders with exposure to the global real estate market with a portfolio of dividend-paying real estate securities in developed markets from around the world. The Fund invests in the common equity, preferred equity and debt securities issued by real estate investment trusts (REITs) and other real estate issuers.

## Investment Objectives

The investment objectives of the Fund are to:

1. Provide unitholders with monthly distributions.
2. Preserve capital while providing the opportunity for long-term capital appreciation.

## Investment Highlights

- Invests in real estate companies that:
  - own a quality global real estate portfolio,
  - deliver attractive yield and growing income and
  - provide inflation protection with reduced downside risk.
- Investment portfolio is diversified by geography, sector and type of security to preserve capital and maximize income.
- Managed by an experienced global team with offices in Toronto, New York, Hamburg and Hong Kong.

### Risk Rating<sup>1</sup>

Hazelview has rated the volatility of this Fund as **medium**.

This rating is based on how much the Fund's returns have changed from year to year. It doesn't tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a low risk rating can still lose money.

For more information about the risk rating and specific risks that can affect the Fund's returns, see the 'What are the risks of investing in the fund?' section of the Fund's simplified prospectus.

## Target Allocations

### Public Equity

- Targets companies trading at deep discounts to book value with promising growth
- High targeted fully funded dividend income from companies with recurring income that have long term contractual leases

### Public Debt

- Targets investments in publicly traded debt and debt-like instruments, including preferred shares, convertible debentures, corporate bonds, mortgage investment corporations and mortgage REITs
- High current yields in a very liquid form

### Private Debt

- Invests in debt secured by real estate or issued by companies that primarily own real estate
- High coupons due to inefficiencies in a marketplace as well as customization of the loan terms

### Private Equity

- Focuses on value-add opportunities where returns are premised on asset repositioning rather than cap rate compression or multiple expansion
- High targeted returns with low volatility
